

A Place Where Life Is Lived

Caring for an aging loved one can be difficult, especially if your loved one is showing the early signs of Alzheimer's, dementia or memory loss.

But there is an alternative.

At The Bridge at Courtside Cottages, we focus on the specialized needs of seniors who remain self-sufficient enough to live in an assisted-living environment while offering them additional encouragement, care and supervision. Designed around the innovative "cottages" concept, The Bridge cottage provides our fifteen residents with the comforts of home and the care they require.

Here, your loved one chooses how to spend time. Activities are based around residents'

preferences and interests, and they have the opportunity dine out, shop and worship just as they would at home – because they are home.

Courtside Cottages is a warm, welcoming and active Northern California community exclusively dedicated to caring for residents with memory loss.

At The Bridge, residents make friends, stay active and enjoy independence while cared for and safe. You have peace of mind, and together, we create a place where life is lived.

Discover more about our unique community today. **Call (707) 449-1350 or visit courtsidecottages.com.**
